

Quick Deploy System™

The Quick Deploy System™ by Communitech is an innovative, fast and easy to deploy surveillance system ready for monitoring potential trouble spots quickly.

Quick Deploy™ Max Features:

- One-man deployment operation.
- Wireless Operation
- Camera can be monitored from anywhere
- Pole is 9m in height fully extended giving *Maximum* view.
- Lockable trailer for other equipment
- Hydraulic system ensures safe operation of pole.
- Heavy duty deep cycle batteries
- Recharge: back to base, onboard generator or solar panel configurations.
- Available in single, twin or twin + self-guard camera configuration.
- PTZ cameras give *Maximum* coverage

Designed for quick deployment in emergency, temporary or remote situations. Emergency, security or other authorised personnel can see what is happening at the trailer or from nearby or remote control centres.

The perfect solution for situations where conventional surveillance installations are impractical, difficult or impossible.

Watch from anywhere

Quick Deploy *Max* is ideal for building sites, industrial complexes, mine sites, major events or gatherings or wherever a quick short or medium term surveillance solution is required.

The Quick Deploy System™ takes away the headaches, and makes it easy to monitor anything from anywhere.
